

SAN DIEGO GREEN NEW DEAL

UN IPCC Report (2018)

Significant differences between 1.5°C and 2°C

- Health, livelihoods, food security, water supply, economic growth
- **Population exposed to water stress (extreme drought, rainfall deficits, and risks due to water availability) 50% lower**
- **Hundreds of millions fewer people at risk of climate-related poverty.**
- Low-income countries & island nations will be most impacted.

Path to 1.5 Degrees C

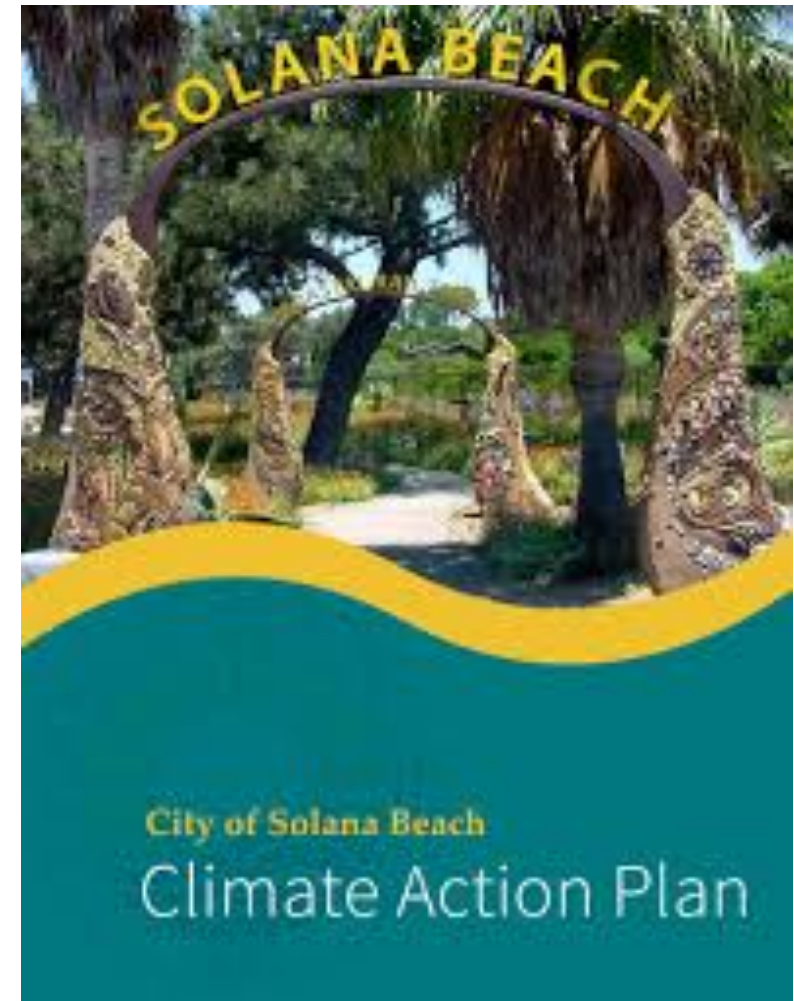

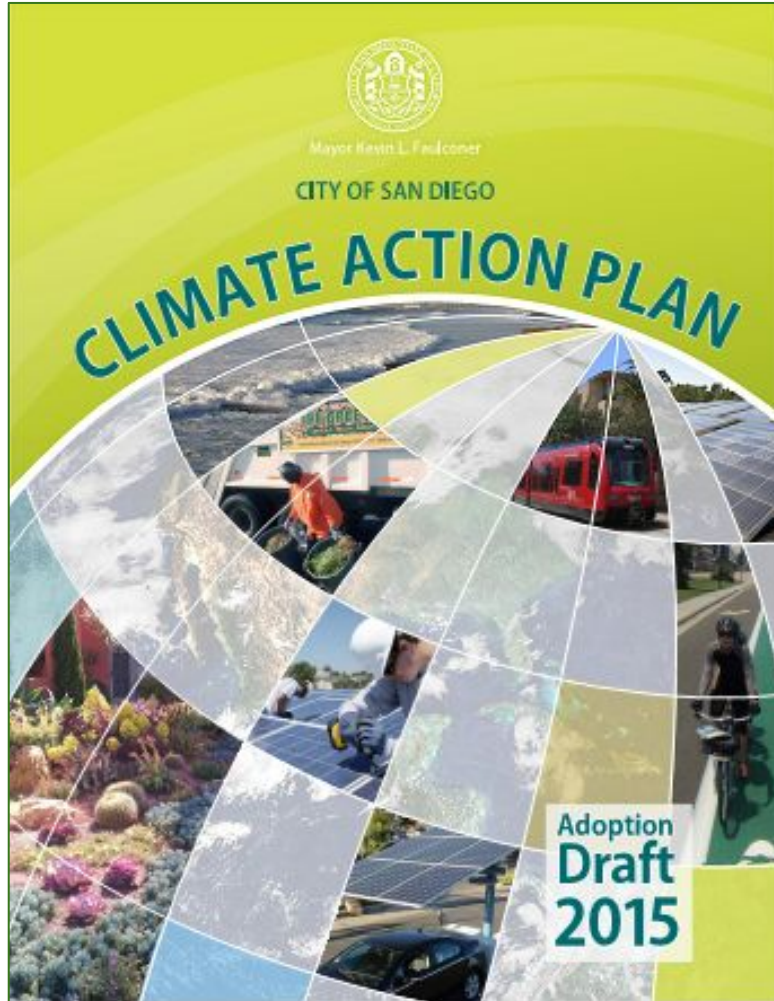

- **45% reduction of GHG by 2030**
- **Net-zero emissions by 2050 at the latest**

Current commitments = disastrous 3C+ of warming.

Urgent and Unprecedented Action

Local Commitments Are Not Enough

San Diego Green New Deal - Climate, Jobs, and Justice

A plan for the San Diego Region to achieve net-zero emissions by 2045 or sooner in a way that advances justice and prosperity for workers, vulnerable communities, and communities impacted by oppression.

Framework to unite, elevate, and accelerate current efforts.

- **Building Awareness and Support**
- **Implementing Policy Change**
- **Transforming Political Power**
