

**Prevent wildfires.  
Provide safe drinking water.  
Protect California.**

## San Diego Fact Sheet

**Devastating wildfires, unpredictable cycles of drought and flooding, and extreme heat waves** make front-page news almost daily.

**Proposition 4** represents a historic shift from response to prevention, saving us billions of dollars more in damages and saving lives by investing in proven solutions to:

- **Prevent devastating wildfires** and smoke.
- **Provide safe, reliable drinking water** while boosting supplies.
- **Protect California's iconic** beaches, forests, mountains, rivers, and coast.
- **Ensure all Californians** have access to clean water and healthy, resilient communities.

### Specific San Diego Region Allocations

**\$50 million** for the Tijuana River Valley Watershed projects and New River Water Quality, Public Health, and River Parkway Development Program.

**\$48 million** for the San Diego Rivers Conservancy for climate resilience projects.

**\$25 million** for the San Diego Rivers Conservancy for watershed improvement, wildfire resilience, chaparral and forest restoration, and workforce development.

### Statewide Allocations Will Also Benefit San Diego Region Communities

**\$1.5 billion** for projects that reduce the risk of wildfires and health-harming wildfire smoke near communities, increase wildfire suppression capacity, and integrate regional fire prevention activities.

**\$1.2 billion** to increase coastal resilience, mitigate the effects of sea-level rise, and improve coastal ecosystem health.

**\$870 million** for projects that protect and restore fish and wildlife habitat and achieve the state's biodiversity, public access, and conservation goals.

**\$450 million** to increase resilience of low-income communities to the impacts of climate change by funding cooling and clean air centers, emergency shelters, shade and urban green infrastructure to reduce exposure to extreme heat.

**\$386.25 million** for water recycling facilities.

**\$200 million** for the reduction of climate impacts on disadvantaged communities and vulnerable populations and the creation, protection, improvement and expansion of outdoor parks and open-space lands.

**\$175 million** to repair and replace worn State Park facilities.

**\$135 million** for grants to local agencies to help leverage federal funds to reduce wildfire risks, improve emergency notification and response systems, and further help communities become more resilient to the impacts of climate change.

**\$75 million** for trails to expand recreational opportunities.

**Other allocations** help reduce risks and impacts from wildfires, floods, sea level rise, droughts, and to increase community resilience to climate change.
